

# USA

## Dust Guard

# 153 CFM Dust Extractors

PREMIUM CLASS: Powerful, Low 9.0 Amp Draw Motor, Large Capacity, Extreme HD Durability, **3-Year Warranty**

Div of Scott Electric • 412 - 605 - 2992 (#Direct)

**Compact • Ultimate Production Yields • 9.2-Gal 153 CFM**

## Ultra Fine Dust Extraction

### Increase Productivity:

**Large Collection Yields & No Suction Drop ~ Guaranteed! \***

### FEIN – Professional Grade Quality, Durability

- > **Maximum Productivity - Large Collection Yields**  
Collect 25+ lbs of silica dust w/o suction drop \*
- > **Easiest Portability & Compact Handling:**  
Large, non-marking wheels & pull handle to transport the vacuum to job sites, up-and-down stairs & safely used on scaffold with lock-in casters.
- > Includes: - Wet / Dry Tool Kit (right)
  - Auto-start outlet for power tools
  - Go from Wet-to-Dry use without conversion.

2-Models: same vac, both for silica dust extraction, "AC" model equipped with Auto Filter Clean.

**Turbo II "W/D" — \$380.00 (1+)**

- > 9.2-Gal, 153 CFM, 98" H2O, 9.0 Amp
- > HE Filter (99.97% @ 1.0-micron)
- > 25+ lbs. Silica Dust w/o Suction Drop \*
- > Fein Model # 920 360 600 90

**Turbo II "AC" — \$499.00 (1+)**

- > 9.2-Gal, 153 CFM, 98" H2O, 9.0 Amp
- > HE Filter (99.97% @ 1.0-micron)
- > 25+ lbs. Silica Dust w/o Suction Drop \*
- > Fein Model# 920 300 600 90

**Buy 2 Receive Free Shipping**

- Low Amp Draw -

**9-Amp Motor Operates from 15 Amp Circuit**

- Impressive CFM & H2O -  
**153 CFM is OSHA Silica Dust Compliant to Handle 6" Diamond Blades**

**Powerful 98" H2O for Wet Pick-Up**

**Ultra Fine Dust Separation  
Optional "Auto Clean" Filter**

**99% of Debris is Contained in the Collection Bag  
Cartridge Filters Stay Clean  
Powerful Suction Maintained**

**Work Longer without Filter Cleaning - Increase Productivity!**

**Cartridge filters stays clean!**

**BUILT TO LAST**

**HD Quality Components  
First-Rate Engineering  
Collect both Dry & Wet**

**3-YEAR WARRANTY**

**Two-Stage Whisper Quiet Motors  
Power Tool Actuated - vac turns on and off automatically when a power tool is plugged into the receptacle**

**Specifications:** 99% HE Wet/Dry Filter, 1-1/4" x 13' hose, Complete Tool Set for W/D Pick-up.  
[Optional thread-on hose cuffs \(right\) are available to accommodate dust shrouds > > >](#)

Model	Description	Power	Height / Weight	Filter Efficiency Rating
Turbo II W/D	9.2 Gal 120 Volt, 9.0 Amp	153 CFM, 98" H2O	23.22" h x 31 lbs.	99.97% @ 0.5 microns *
Turbo II AC	9.2 Gal 120 Volt, 9.0 Amp	153 CFM, 98" H2O	23.22" h x 31 lbs.	99.97% @ 0.5 microns *

\* To achieve maximum fill capacity (no tearing or bursting), productivity, no suction drop and keep the cartridge filter clean, the [Air Pulse Filter Collection Bag](#) (right) must be used (universal collar, also fits Dewalt & Bosch vacs.)
