Dust Guard

Division of Scott Electric • 412-605-2992 (Direct)

5" Masonry Saw

High Torque Power

Makes Deep, Long "Rip" Cuts

#VX5WV — 5" Dust Control Circular Saw

High Torque, Direct Gear Drive

— 3 Times Longer Lasting than an Angle Grinder

Powerful Dry-Cutting for Concrete, Masonry, Stone

Increased Performance Precision Accurate Sawing

5" Blade with Adjustable Depth-of-Cut

- > 1-11/16" maximum cutting depth
- > Maximum blade width - 1/8"
- > Exhausts zero (0) visible dust *when used with a 125 CFM, 100" H20 Dust Extractor* (dust shroud equipped with 1-1/2" OD Dust Port)

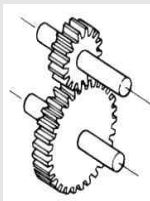

Compact, Lightweight Power - for Long Cuts

- Powerful 11 amp motor, 12000 RPM
- 1-11/16" depth-of-cut with 5" blade
- Sturdy all aluminum single piece blade guard
- Side handle for additional support
- 20mm arbor, 8.4 lbs.
- Vacuum port compatible with 1-1/2" hose cuffs
- Trigger lock, In-Line GFCI, 1-Year Warranty.

\$260.00

Includes: Saw, side handle, wrench, rip guide, garden hose / wet cutting kit with control valve.

Gears: Direct Drive vs Right Angle

Direct Gear Drive (circular saws)

- Produces higher torque
- Best for long, "rip" sawing
- 3 times longer lasting than right angle gear drive.

Right Angle Gear Drive (angle grinders)

- Produces lower torque
- Best for quick, fast cuts
- Motors are smaller, lighter, cost less.

Additional Advantages - Direct Gear Drive:

- Higher torque compensates for inferior diamonds or using diamonds with the wrong bond
- Direct connection to the motor maximizes energy, efficiency, avoids friction loss from the additional gear (i.e. right angle.)

Vacuums:

- > 125 - 300 CFM, 120 Volt
