### Original USA Made Soff-Cut® Blades - Original USA Manufacturer

**Longer Life, Smoother, Cleaner Cuts** - Made in America from USA Steel — Original diamond bonds of the original Soff-Cut® saws. Each blade includes the knock-out arbor (right) to fit Soff-Cut® and standard walk-behind saws with a 1" arbor. Use the **Next Day "blue" Blade (above, right)** when the early entry cutting window is missed or when cutting quick cure concretes — provides the same cutting speed & sharp-finish edge.

Skid plates are not included with the blades - they are not required because of the higher quality of materials, manufacturing equipment, and the quality control that is built into each blade — *you will not find a more precision cutting early entry blade ~ guaranteed.* Please see our website to purchase the skid plates individually.

Size	Price Ea*	Next Day Blade	ORANGE Med Aggregate	BLACK Soft Aggregate	Yellow Med Aggregate	Red Med / Hard	Purple Very Hard
