## Dust Guard

# HEPA Pro MAX

## 421-CFM "Scaffold Vac"

Div of Scott Electric • 4120-605-2992

Compact 13-Gallon — Operates 2 Tuck Point Grinders

**Powerful Suction Sustained Without Tripping a 20-Amp Breaker**

**Includes (2) Dust Pro 6" Guards & Y-Splitter!**

**No Filter Cleaning! — No Pre-Filter to Cake:** *with no loss of suction, the motors and a 20-amp circuit don't overheat — maximum suction power is maintained!!!*

### HEPA Pro: 13-Gal MAX Vac

Includes: 6" Dust Guards (2), Y-Splitter, 10' hoses (2), Vac Bags (5)

**Ideal Size & Power:** Operates (2) dust control grinders - on scaffold - for grinding brick mortar joints!

Air Pulse Vac Bag - 5 Included -

Dust Pro 6" Guard shown with grinder & blade, not included.

— Vacuum Anything: EPA Lead Paint, OSHA Silica Dust Certified  
Asbestos, bacteria, creosote, fireplace ash, lead dust, mold, silica, etc.

— 100% Tank Fill Capacity • HEPA Filter Stay Clean  
Natural, Sustained, Self-Cleaning — No Reverse Pulse

Powerful suction sustained without electronics or the need to purge or clean the pre-filter — Saves you time while maximizing the life and performance of the filter and motor!

### HD Construction

- Extra-Heavy Gauge Power Cord (12/3 x 50') - Eliminates the need for an extension cord plus it assures that the right gauge cord is being used to prevent the motors and circuit from overheating.
- Compact & Portable: Perfect for transporting up-and-down stairs, chimney sweep cleaning, using in tight spaces, on scaffold for brick repointing & wall sawing.
- Large Collection Yields: Hardwood floor sanding, concrete & masonry cutting, drilling, grinding, tuck pointing, etc..
- Everything works together: tank fills to capacity, filters stay clean, circuits don't trip, powerful suction sustained!
- HD, Rotational-Mold, 13-Gal Tank: holds 50lbs of silica dust!

**Available: 2" x 50' Hose**  
A+ to use for overhead & hard-to-reach areas!

**USES NO ELECTRONICS TO:**

- > keep the filter clean
- > prevent suction drop or amp surges!

Collect Creosote, Cold Fireplace Ash, Sharp Objects, Dirt, Debris, Fine Dust — At the Same Time, Without Suction Drop & Without Compromising the Life of the HEPA Filter.

### Powerful 421-CFM Suction ○ Compact 13-Gallon Tank
