Dust Guard

HEPA Pro MAX

421-CFM, 20-Gallon

Div of Scott Electric • 4120-605-2992

Compact • Portable • 120 Volt • Dust Extractor

Powerful Suction Sustained Without Tripping a 20-Amp Breaker

Powerful Suction to handle a 30" Concrete Grinder!

No Filter Cleaning! — No Pre-Filter to Cake: *with no loss of suction, the motors and a 20-amp circuit don't overheat — maximum suction power is maintained!!!*

HEPA Pro: 20-Gal MAX Vac

With 2" x 16' Crushproof Hose, 2" cuffs, Y-Splitter, (2) 1-1/2" x 10' hoses

Ideal Size, Power & Portability — large rear wheels & large collection yield to operate (2) dust control hand grinders or a 30" concrete grinder!

Air Pulse Vac Bag
- 5 Included -

— **Vacuum Anything:** EPA Lead Paint, OSHA Silica Dust Certified

20-gallon capacity collects large volumes of asbestos, bacteria, creosote, fireplace ash, lead dust, mold, silica, etc.

— **100% Tank Fill Capacity • HEPA Filter Stays Clean**
Natural, Sustained, Self-Cleaning — No Reverse Pulse

Powerful suction sustained without electronics or the need to purge or clean the pre-filter — Saves you time while maximizing the life and performance of the filter and motor!

HD Construction

— **Extra-Heavy Gauge Power Cord (12/3 x 50')** - Eliminates the need for an extension cord plus HD gauge assures that the right cord is being used to prevent the motors and circuit from overheating.

— **Compact & Portable:** Perfect for transporting up-and-down stairs, over rough terrain, using in tight spaces — large rear wheel and front locking swivel casters.

— **Large Collection Yields:** Hardwood floor sanding, concrete & masonry cutting, drilling, grinding, asbestos abatement, industrial cleaning.

— **Fully HEPA Certified for Hazardous Material Recovery:** In the event of failure by one of the downstream pre-filters, the HEPA filter and vacuum are both certified to prevent the bypass of dangerous matter back into the work area.

— **Everything works together:** tank fill to capacity, filters stay clean, motor don't get hot, circuit doesn't trip, powerful suction sustained!

— **20-Gallon Tank:** HD, rotational-molded, "very portable & maneuverable", holds 75 lbs. of silica dust.

Available: 2" x 50' Hose
A+ to use for overhead & hard-to-reach areas!

USES NO ELECTRONICS TO:

- > keep the filter clean
- > prevent suction drop or amp surges!

Collect Creosote, Cold Fireplace Ash, Sharp Objects, Dirt, Debris, Fine Dust — At the Same Time, Without Suction Drop & Without Compromising the Life of the HEPA Filter.

PRICING / SPECS: 5-Stage Filter, 16' x 2" hose, (5) Oversize Micro-Fiber Collection Bags, 2" hose cuff, Y-Splitter, (2) 1.5" x 10' hoses, (2) 2" cuffs, 1-Yr Warranty.
