## FILTERS & CARTRIDGES — for use in the 6000 Series Half-Face and Full-Face Respirators

2091 - P100 Filtration (highest filter efficiency rating you can get) plus protection from certain oil and no-oil particles. **Extremely fine dust filtration, traps all but the most finest particles. Rated to remove 99.9% of particles .3 microns and larger.** . . . . 100 / Case

2078 - P95 Particulate Filter with Nuisance Level Organic Vapor & Acid Gas Relief. **Ideal for shop cleaning, sweeping, working in dusty outdoor fields. Provides same filtration as a N95 dust mask but with the better and safer fit you get from a half face respirator.** . . . . . 100 / Case

2096 - P100 Particulate Filter with Nuisance Level Acid Gas Relief. . . . . 100 / Case

2097 - P100 Particulate Filter with Nuisance Level Organic Vapor & Acid Gas Relief. **Ideal filter for protection against toxic dusts, lead, asbestos, mold cleanup and re-mediation.** . . . . . **100 / Case**

2296 - P100 Filtration with Nuisance Level Acid Gas Relief. . . . . 100 / Case

2297 - P100 Filtration with Nuisance Level Organic Vapor Relief. . . . . 100 / Case

60921 - P100 Filtration plus Organic Vapor Protection. **Combines a charcoal-filled organic vapor cartridge with a P100 filter.** . . . . . 60 / Case

60926 - P100 Filtration plus Multi-Gas / Vapor Protection. **Broad range cartridge filter intended where multiple types of vapors, toxic dusts or mists are encountered.** 60 / Case
